THE COURTS.

TAXES AMOUNTING TO \$1,000,000 DUE. Application was made to Judge Lacombe in the United States District Court yesterday for an in-junction to restrain the city of Brooklyn from disposing of certain property belonging to the heirs of Edwin C. Litchfield. This property was bought in 1869, and Prospect Park now covers some of the in 1860, and Prospect Park now covers some of the tract which belonged to it originally. Other parts of it border on Gowanus Canal and Gowanus Bay. The taxes, it is alleged, have never been paid, and, with interest, now amount to \$1,000,000 or more. Streets were opened through the property, and it was in consequence assessed. The city of Brocklyn advertised the property for sale. Last January the heirs got an order restraining the sale until an argument against it could be made. The defendants alege that when the taxes were due they sold some of the property, and to give a clear title to it had to pay taxes to the amount of \$800,000.

For the city it is said that no taxes have ever been paid. In 1830 the Legislature passed a law for the relief of taxpayers. The heirs say that under the act they made a tender to the register of one-fifth of the taxes on twenty parcels of land and it was refused. The city denies that such a tender was made.

"... The disjointed and often fragmentary bones by which these animals are usually expresented in museums convey no ideas whatever to the majority of those who see them. It is quite otherwise with such representations as the figures of this work; and if in some cases the idea conveyed may not be strictly correct it offers a fair approximation, and at all events gives a vivid conception of some remarkable creature which in its main outlines cannot be far from the actual reality."--From the Preface, by Sir W. Sir: You were very kind to give so much space to the Packard Commencement this morning, and I know your readers will thank you for it.
